## The Busy Corner. Our Third Great 13 Rebuilding Sale.

Of course our store doesn't look very inviting at present, because we are rebuilding. Any one can see that if they go through our store. The saw and the hammer can be heard on all sides—the meetings show plain hand. And so do we. Our goods are being sacrificed. Our prices are weaker than ever, although our stock is still big and strong. Our bargain menu for Tuesday is still as great as any this season.

## WASH GOODS.

Lawns, Dimities, Challis, Plain Grenadines, all sorts of designs and colors. Some patterns are gaudy, others are neat-some can be worn for mourning—these very goods were among our best sellers when the prices were 10c. and 12½c. a yard. Now they 278C. have no particular value, because we give the choice at...

Fancy Swiss Mulls, soft finish Batiste, fine Organdies, sheer Lawns and Foulard novelties. An aggregation of several hundred pieces still await your calling. A great many navy blues and neat mourning effects among this roster—these identical goods were 15c. and 19c. a yard, and sold well at these prices, 534c.

Domestic Ginghams with Scotch ideas—the colorings and patterns are just as perfect as any foreign goods; the cloth is soft 

but now they go for.....

Another lot of Ginghams made by foreign mills. They are between the extremely fine goods and domestic makes. They are plain and corded; some are even loomed with threads of silk, broken checks and plaids; wide and narrow stripes are the patchecks and plaids; wide and narrow stripes are the patterns; some of the best colors are still among the lot. They are 32 inches wide, and sold for 25c. a yard. Reduced to...

SCHOOL BUILDING NAMED.

One on Kenyon Street to Be Known

public school now in course of con struction on Kenyon street between 12th and 13th streets. Columbia Heights, will be known as the Hubbard School, in memory of the late Gardiner G. Hubbard. The names of the buildings are selected by the District Commissioners, and Commissioner Ross, who has immediate supervision of the public schools of the District, suggested to his associates that the Kenyon street school be designated the Hubbard, in view of the fact that Mr. Hubbard was not only one of the most public-spirited men of the District, never neglecting an opportunity to advance its interests, but was also a man of great learning and earnestly interested in all educational movement Mr. Hubbard was the president of the Na-tional Geographic Society, a man promi-nent in science and a man of the highest

character.

The new school will be located on the south side of Kenyon street, and it is exsouth side of Kenyon street, and it is expected to a second street. south side of Kenyon street, and it is expected it will be ready for occupancy early next spring. For its site and construction Congress appropriated the sum of \$47,500, and it is understood that for construction purposes about \$37,000 remains available, the site having aiready been paid for. The building will be two stories in height, and will contain eight roms.

#### CHAIRMAN KNAPP'S LECTURES. Course Before Columbian University

Martin A. Knapp, cnairman of the inter state commerce commission, will give a course of lectures before the school of comparative jurisprudence and diplomacy of the Columbian University during the coming winter, on the various questions involved in the railroad and transportation

volved in the railroad and transportation systems of this country.

Mr. Knapp will treat the subject historically, beginning with the public highway, the use of navigable waters, and the construction and operation of causis and railroads; observing the rights of the public; the relations of owners of milipods to the management and the public; theory and practical working of competition and combination; legislative confol, and reviewing the interstate sommerce law and the decisions thereunder, as well as the proposed amendments of the present law.

IN BEHALF OF THE PUBLIC THE WORLD OF SOCIETY

missioners to Issue Certain Permit.

Relocation of Tracks of Street Railway on Brightwood Avenue-

letter to the District Commissioners protesting against a proposed relocation of the nue, and catechising the Commissioners as

"Gentlemen-Can it be true that the Commissioners have consented to turn Brightwood avenue over to a street railway company, thereby causing great detriment, inas well as the exclusion of the rights and privileges of land owners and the traveling

"Can it be true that the Commissioners have the legal right to permit this railroad company to relocate its tracks, place them with friends at Long Island City, from which place they will leave for Long company to relocate its tracks, place them further apart and lay them in the center of the road without authority from Congress, before it has been widened, as it must necessarily be to gratify such a plan of relocation?

"Can it be true that all privileges shall

"Can it be true that all privileges shall be accorded this corporation and nothing reserved for the taxpayers, land owners and driving public, for business and for

pleasure?
"If these questions can be answered in the affirmative, then the present condition of Brightwood avenue is as it should be.

#### Relief Wanted.

"Realizing, however, the unbearable hardship which is being experienced by the people of this section of the District, as well as those of Montgomery county, Maryland, who are obliged to use this highway. I feel that we have a right to request the Commissioners to afford us some relief from the existing state of affairs. We are of the opinion that much could be done under your direction, through the medium of our su-perintendent of roads or his qualified offi-cer, that would inure to the benefit of the

people, and I would respectfully request your attention to this important matter.

"May we be permitted to suggest:

"First. That the legal right of said company to relocate the tracks is questioned.

"Second. That the widening of said average of the said and the s nue is an undertaking necessarily prece-dent to the location of said tracks in the center thereof.

#### Work Should Be Scrutinized.

"Third. Whether the tracks are located n the center or are allowed to remain or the side of said avenue, a representative o the Commissioners should at all times be present in the interest of the taxpayers to equire aid company to conduct the work of relaying the tracks so that the most space possible shall be kept available for the driving public, clear of large stones and embankments of earth which can now be found unnecessarily deposited upon the narrow portion remaining for the use of the people, and thereby enable the public to use this important avenue with some de-

gree of safety.
"Fourth That in order to avoid some serious accident and to enable the driving public, and, indeed, pedestrians also, to use what has been left of this highway, the railroad company should be required to light it with electricity. If this cannot be secured in consideration of the conveyions secured in consideration of the concessions they desire, then the District should pro-vide at once gas or electric lights from the Takoma junction north to the District line and additional lights south of this point.

"The importance of this avenue as a medium of travel and the absolute necessity of the people to use it will me become the people to use it will, we hope, secure your immediate attention."

#### HOUSES NOT NUMBERED.

Annoyance Caused by Absence of

The attention of the District health officer was recently invited by one of the inspectors of the health department to the fact on the fish and oyster wharf, 11th and Water streets southwest, is properly designated by numbers, as appears to be required by the building regulations. The absence of proper numbering of these structures, it was reported, causes much annoyance and inconvenience to those officials intrusted with the serving of notices and the prompt abatement of nuisances. The health officer referred the report to the The health officer referred the report to the Commissioners, and they have been informed by the inspector of buildings that no scheme for numbering the buildings and plers along the river front can be devised until the land abutting thereon is subdivided. As the property is now under the control of the Commissioners, it was suggested by the inspector of buildings that the proper official designation can be given to each parcel when leased to private parties.

ties. Capt. Craighill, the acting engineer commissioner, is of the opinion, however, that the preparation of a scheme of numbering the buildings and piers on the water front should be deferred. It seems desirable to Capt. Craighill that all the piers on the water front of both the Potomac and Eastern branch should have numbers, following the practice in vogue in New York and other cities, but this, he explains, cannot at present be satisfactorily worked out. Therefore, the Commissioners have ap-proved his recommendation that the matter be deferred.

## MEETING OF TYPOS.

Local Union Votes to Aid Brethren in

New York. Typographical Union No. 101 held a meeting at Typographical Temple yesterday afternoon, when the officers elected in May were installed, and the reports of the sec retary and treasurer showed the organization to be in a very prosperous condition. More men are steadily employed than ever before, and everything indicates a better financial condition.

Resolutions were passed denouncing th course taken by the New York Sun, and offering financial and moral support in this fight with the paper. It was decided to fine any member of the union \$5 for buying the Sun, and to withdraw patronage from any newsdealer who sells it.

Sympathy was expressed for the miners in the Coeur d'Alene district, and the re-

port of Commissioner Kennedy was disussed.
Resolutions thanking Secretary Wilson of the Agricultural Department and Prof. Wil-lis Moore of the weather bureau for raising the wages of the printers connected with the weather bureau from \$3.20 to \$4 a day
